Edward McLeod - Doris Rogers - Alaska

8-22 June 2017

CAMERON ECKERT - WHITEHORSE, YT

Cold early June with lots of ice - like 2013 and a sharp contrast to 2016. There were some mind boggling birds! A male Harris's Sparrow Hawk, sang every day 8-16 June and then departed. A Thick-billed Murre off Collinson Head on 15 June, and a Sabine's Gull here on 13 June. Most astonishing was a morning walk along East Ice Creek where I found a CALLIOPE HUMMINGBIRD on 19 June, and then a Cape May Warbler at East Gully on the same day!! Thanks Sam and Skatie!! Great to see Team Shrub Plus - even briefly. Best! Cameron.
